

SURREY On Track to Becoming the Province's Largest City

Immigration to Canada and B.C.—The Big Picture

In 2021, Canada welcomed 406,000 immigrants—a record number. Moreover, current plans are for that number to increase. Currently, immigrants make up 23% of the Canadian population, another record high that is expected to grow.

B.C. broke a record for the number of people moving to the province in 2021. B.C.'s net migration reached 100,797 people in 2021, the highest annual total since 1961.

In B.C. the number of new immigrants almost doubled between 2016 and 2021, from 38,085 in 2016, to 69,470 in 2021. In 2021, 17% of all new permanent residents to Canada chose B.C. as their destination, up from 13% in 2016. This trend is expected to continue, meaning that B.C. can expect to welcome an increasing number of immigrants each year.

An Unprecedented Growth Rate

Surrey is growing at an unprecedented rate, adding more than 51,000 people since 2016. Expressed another way, over the last five years, Surrey welcomed 28 new residents every day. At the current rate the City is on track to become the province's largest city around the year 2040, surpassing Vancouver in population.

Where are all the people coming from? Much of the growth can be attributed to the arrival of new immigrants. In 2021, nearly half of Surrey's population was born in another country. More than two-thirds identified as members of a racialized group. The following is a look at Surrey's growth and its newest residents.

Canada's immigration targets have an economic rationale

Between 2023 and 2025 Canada intends to welcome an unprecedented number of immigrants, mostly in the Economic class, which is primarily comprised of working-age, educated people who have English or French language skills.

Immigration, Refugees and Citizenship Canada (IRCC) has targeted a significant increase in admissions in 2023, 2024 and 2025.

2023-2025 Immigration Levels Plan

Immigrant Category	2023	2024	2025
Total	465,000	485,000	500,000
Economic	266,210	281,135	301,250
Family	106,500	114,000	118,000
Refugees and Protected Persons	76,305	76,115	72,750
Humanitarian & Compassionate and Other	15,985	13,750	8,000

Immigrant growth in Surrey and Metro Vancouver

Surrey attracts an increasing portion of immigrants to British Columbia's southwest coast. In 2021 immigrants made up 45% of Surrey's population, slightly higher than Metro Vancouver's regional level of 42%.

In 2021, 39,910 (20%) of recent immigrants to B.C. (those who arrived between 2016 and 2021) lived in Surrey. Recent immigrants made up 7% of Surrey's population and contributed 78% of the City's total population growth between 2016 and 2021.

Immigration patterns are constantly shifting. In recent years, Middle Eastern countries such as Syria and Iraq have become top source countries, while the proportion of immigrants arriving from China and the Philippines has dropped.

Immigrants in Surrey and Metro Vancouver by recent Census periods

Surrey's Proportion of Metro Vancouver immigrants is increasing

Twenty years ago, Surrey had a lower proportion of immigrants than did Metro Vancouver. Today the situation has been reversed. Over the past 20 years, the immigrant population in Surrey has increased from 33% to 45%. In actual numbers that represents an increase of more than 136,000 newcomers since 2001, almost 40% of the Greater Vancouver total.

Surrey Population

Where Surrey's immigrants come from

Newcomers from the 10 leading source countries make up 81% of Surrey's recent immigrants. Almost half (46%) of those came from India.

Almost half of Surrey's recent immigrants arrived from India.

Elsewhere in Metro Vancouver and in the province, China closely rivals India as a main source of immigrants, a situation that is not the case in Surrey. In all three jurisdictions the Philippines is a significant source country.

Immigration patterns are constantly shifting. In recent years, Middle Eastern countries such as Syria and Iraq have become top source countries, while the proportion of immigrants arriving from China and the Philippines has dropped. Once significant source countries such as Fiji, the United Kingdom and Taiwan are no longer found in the top 10.

Place of Birth of Recent Refugees to B.C. (2016-2021)

Refugee arrivals change over time, depending on events and circumstances around the world. In recent years Syria and other countries in the Middle East, as well as North Africa, have become the predominant sources. About 25% of all refugees to B.C. reside in Surrey.

In Canada's most populous census metropolitan areas, specifically Metro Toronto and Metro Vancouver, racialized groups (also termed visible minorities) are now a majority. In 2021, 55% of Metro Vancouver's population identified as racialized. By comparison, 67% of Surrey's residents identified as a member of a racialized group.

*Census Profiles (100% sample data) ** Census profiles (25% sample data)

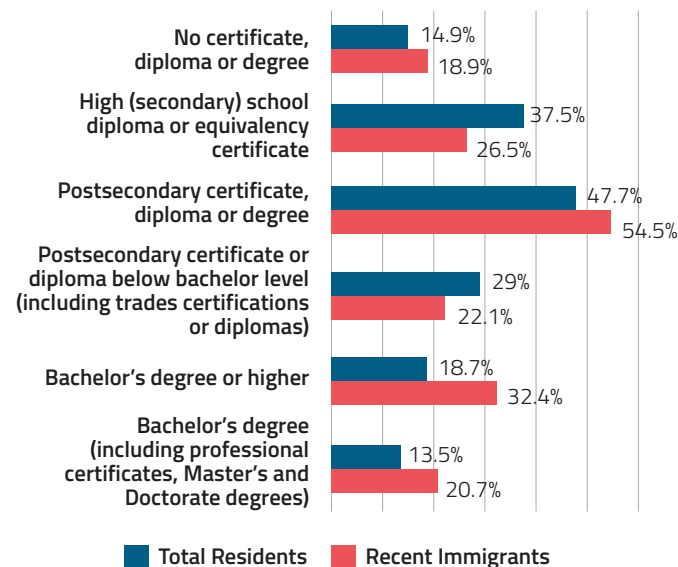

Surrey's immigrants are younger than the population as a whole

Canada's immigration system has been designed to favour working age immigrants (25 to 54). In Surrey fully 63% of recent arrivals are in the 25-54 age group, compared to 42% of the total population. Conversely, only 10% of recent arrivals are 55 or older, compared to 24% of the general population. From a regional perspective, the age differential is even more pronounced, as Surrey's general population is slightly younger than in Metro Vancouver.

Surrey's immigrants are well educated

32% of immigrants have a bachelor's degree or higher, almost double the share of the non-immigrant population.

Mother Tongues in Surrey and Metro Vancouver

English is the mother tongue of slightly more than half of the population of Metro Vancouver, but only 43% of Surrey residents. Punjabi accounts for nearly 23% of Surrey residents' mother tongue, versus 7% in the larger region. It is important to note that Surrey residents speak more than 170 languages.

About the Surrey LIP

Surrey Local Immigration Partnership (LIP) is a collective of community partners, bringing diverse voices together to build a fair and inclusive city where all immigrants, refugees, and citizens thrive. Through dialogue and research, Surrey LIP's 40+ members collaborate on innovative and community-driven strategies to meet the changing needs of one of the fastest-growing cities in BC. They work collaboratively to develop strategies to prepare the community to welcome new immigrants and refugees through an equitable and inclusive approach.
